

Teaching Mathematics with Technology - An exploration with Geogebra

Creating your account on Geogebra OER repository -
accessing, uploading and sharing your resources

Geogebra.org an OER repository

- Geogebra.org has a repository of Geogebra sketches, lesson plans, worksheets and related resources
- You can access Geogebra resources on any topic on this repository for your own use, as it is an OER repository
- You can create your own account using your mail id or through your existing Google or Facebook account
- You can upload your Geogebra resources on your account and share the link with others
- Your resource is available as part of the Geogebra.org OER repository for others to search and download

In the following figure, name the triangle congruent to $\triangle ABC$ and give the reason (i.e. SSS, SAS, ASA, AAS or RHS).

Drag its red vertices to rotate a triangle. Drag its x point to move it.
CLICK THE TRIANGLE to reflect it.
CLICK an ANGLE or SIDE to highlight it.

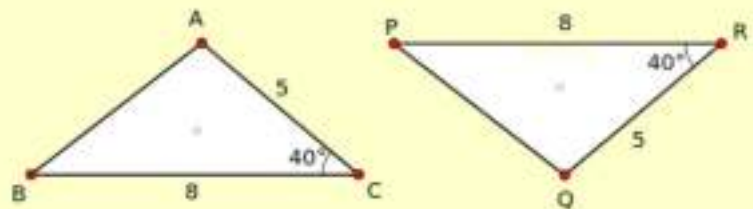

$\triangle ABC \cong \triangle \square (\square)$

In the following figure, name the triangle congruent to $\triangle ABC$ and give the reason (i.e. SSS, SAS, ASA, AAS or RHS).

Back

Drag its red vertices to rotate a triangle. Drag its x point to move it.
 CLICK THE TRIANGLE to reflect it.
 CLICK an ANGLE or SIDE to highlight it.

$\triangle ABC \cong \triangle$ $($ $)$

Creating your account on Geogebra.org

- Open <https://Geogebra.org>
- Click on the Sign-in link on top right of the page
- Enter your email id, the account name you want in Geogebra and chose a password
- On clicking submit, you will get an email to your specified mail id
- The mail will contain a link for confirmation
- Click on the link and enter the information required on the screen (it is optional).
- On submitting this form your account is created in Geogebra

Uploading resources on your account on Geogebra.org

- Open <https://Geogebra.org>
- Click on the Sign-in link on top right of the page and enter your Geogebra id and password
- Click on 'Create' button to upload your Geogebra file
- You can also upload worksheets, lesson plans and related resources to use the Geogebra file
- After uploading you have to 'publish' the file so that it is visible to others.
- You can copy the 'URL' of this page and share
- Once you publish, anyone with the url can see and download your file and resources

What we learnt

- Downloading OER from Geogebra.org on any Mathematics topic
- Creating our own account on Geogebra.org
- Uploading a OER Geogebra resource created by us on Geogebra.org and publishing the same
